Northern Grown
SEED OATS

● High Purity

● High Yielding

Always Gives Best Results

The O & M Seed Co.
Growers

GREEN SPRINGS, OHIO

You Can't Substitute For Quality

The One Essential for Success in Oat Production is Good Seed

Exceptionally high yields are reported from many satisfied customers. O & M Seed Oats have been used for more than a $\frac{1}{4}$ century with excellent results and increased demand.

Note the above picture of O & M Northern Grown Seed Oats. They produce a strong healthy vigorous plant, stiff straw that seldom lodges, and stool heavy which is essential in producing high yields. They can be sown $\frac{1}{2}$ bushel per acre less than common oats.

O & M
Purity

O & M
Quality

The quality of O & M Seed Oats is unsurpassed—thick kernel and thin shuck. Our Seed Oats are cleaned over four special seed oat mills, making a perfect separation and high purity.
